Dear Sir,

With reference to your interview at this Office on Friday last, I regret there is no vacancy on the Technical Staff for a junior either at Plymouth or Taunton, the two Divisional Engineers' Offices in the West Country.

I should be prepared to offer you a post as temporary tracer in this Office at the salary of £121.10.0 but it is doubtful whether you will be able to live in London on such a salary. It will be necessary for you to consult your father in regard to the matter to ascertain whether he would be willing to contribute to your maintenance until such time as you were earning sufficient money to keep yourself.

In this connection your rate of pay would increase with satisfactory service to £136.10.0 at age 17 and £188 at age 18 with further increases on your birthday.

When you have had an opportunity of considering the matter with your parents, please let me have your decision and if you intend to take advantage of the offer made, please say when you will be available to start work.

Yours faithfully,
for A.S. Quartermaine,

Mr. D. J. Wroe,
28, The Strand,
BUDE, Cornwall.
